**Ozark Mothers Used To Be
Afraid To Go To Bed At Night**
Now Sleep Soundly Since They Have
Found A Sure Preventive
For Croup.
Many mothers, besides those of
Ozark, Mo., have been afraid to sleep
at night for fear of being awakened
by that dread croupy cough. Mrs. H.
H. Givan and Mrs. J. J. Cave, both of
Ozark, have found, in common with
many other Missouri mothers, that a
jar of Vap-O-Rub in the house in-
sures a good night's sleep.
Vap-O-Rub is the external treatment
for all forms of croup or cold troubles.
Introduced here from the South last
winter. It is in saline form and, when
just rubbed over the throat and chest,
covering with a warm flannel cloth.
The body warmth releases antiseptic
vapors that are inhaled with each
breath, loosening the phlegm, and, in
addition, Vap-O-Rub is absorbed through
and stimulates the skin, relieving the
tightness and soreness. Croup is usu-
ally relieved in fifteen minutes, and a

EL PASO GENERAL CROSSES THE
BORDER TO FIGHT THE
UNITED STATES.
SHOTS FIRED AT OUR AIRMEN
Some of Columbus Raiders Are Now
Under Arrest, But Arch-Villain
Still Eludes Gen. Pershing
and Col. Dodd.

El Paso, Tex.—Gen. Ynez Salazar,
one of the best known of the former
Huerta generals, who has been living
here, was reported to have crossed
the border with the announced inten-
tion of taking arms against the
United States.
San Antonio, Tex.—Co-operation to a
limited extent by the Mexican mili-
tary authorities in the work of the
American punitive forces in Mexico,
was indicated by their offer to Gen.
Pershing of the use of the telegraph
and telephone lines.
The offer was made to the aviators
who landed in Chihuahua last week
and was reported by Gen. Pershing to
Gen. Funston.
The drivers of the aeroplane that
visited Chihuahua said they had been
treated cordially by Gen. Guiterre,
commanding officer, after it was dem-
onstrated that they had come on a
friendly mission, although before that
fact was demonstrated to the alarmed
public a few stones had been thrown
at them and a shot or two fired. No
one was injured.
The present position of the ad-
vanced columns was not made public,
but it was known that cavalry co-
lums under Colonels Brown and Dodd
are driving south from Saltillo with
all speed. Officers here had no in-
formation that either force had gone
so far as Peralta, but said the receipt
of such information would be no sur-
prise. Gen. Pershing himself is moving
south along the trail to Saltillo, per-
sonally directing so far as possible
the pursuit of Villa and the search
of the mountains and plains adjacent
to the trails being followed.
Reports at headquarters show that
a few arrests have been made of
those who took part in the raid on
Columbus, N. M., a month ago. Gen.
Pershing, who reported the arrests,
did not indicate where the men were
captured or whether they were pris-
oners taken at Guerrero.

THREE WIVES CLAIM ESTATE
Two of Women Meet at Undertaker's
After Man Is Killed in Peoria
Railway Accident.
Peoria, Ill.—Three wives have
appeared to claim the estate of J. Frank
Pierce of the Peoria Terminal rail-
way, who was killed a few days ago
in an accident. None of the wives
knew of the existence of the others.
Mary Pierce, who was married to
Pierce last October, lived with him
until his death, and made funeral ar-
rangements, when another Mrs. Pierce
arrived at the undertaking parlors and
claimed Pierce as her husband. The
second Mrs. Pierce, who was Miss
Edna Stone, declared she married
Pierce a year ago. They say Pierce
had been living with both at times
during the last few months.
Some former friends appeared in
court, telling of another woman Pierce
married a few years ago. Her claim
has been presented in court.

Car and Auto Crash.
Jamesville, Wis.—Miss Elsie Patters,
daughter of Mayor Jan. A. Patters,

Detroit, Mich.—Mrs. Lillian Dieber
and her two young daughters were suf-
focated and two persons injured in a
fire which swept the Dieber home.
Five Performers Burn to Death.
London.—Five child performers were
burned to death on the stage of the
Gaiety theater at Hereford. It was
a children's entertainment to provide

tioned.

**PROSPERITY IN
WESTERN CANADA**

900 Million Dollars in New Wealth
Added in 1915.

Canada as a whole has enjoyed won-
derful prosperity in 1915, from the
products of the farm, the orchard and
the centres of industry. No country
wrote a brighter page of history in
agricultural and industrial develop-
ment during 1915 than Canada. Nearly
a billion bushels of grain produced.
Taxes in Western Canada average \$24
and will not exceed \$35 per quarter
section, which includes all taxes. No
taxes on improvements.
When Western Canada was faced
with her enormous harvest last fall
the military authorities decided that
soldiers in Canada could give the Em-
pire no better service for the time
being than to assist in harvesting the
crops. For that reason leave of ab-
sence was given to soldiers who
wished to work in the harvest fields,
and their labor was an important fac-
tor in harvesting the big crops suc-
cessfully.
The necessity for increasing the ag-
ricultural production is commanding
even more attention in 1916, and it is
now announced that soldiers in Can-
ada may obtain leave of absence from
their military duties in the spring for
a certain length of time to enable
them to plant the seed for the crops
in every Province of the Dominion.
The fact that the Government re-
cognizes the seedling and harvesting of
Canada's crops as being of the first
importance is perhaps the best evi-
dence that conscription or any in-
crease of taxes which would reduce
the agricultural activity of Canada
will never be considered by the author-
ities.
Owing to the number who have en-
listed for overseas service it has been
found necessary to secure farm labor
in the United States. It is hoped that
fifty thousand can be secured.—Adver-
tisement.

ORIGIN OF THE "TANKER"

Thirty Years Ago the First Iron Oil
Carrier Was Built by a
Prussian.

About 1880 Wilhelm Riedemann, a
Prussian shipowner, withdrew from
the East Indian and American trade
for use in transporting petroleum to
sailing vessels which had amidships
two iron tanks of the same depth as
the distance between deck and keel.
The Wall Street Journal states. Orig-
inally these tanks contained drinking
water for the sailors, but it was found
out that the water could not be kept
free of iron rust and this use was
abandoned. Riedemann utilized these
tanks as petroleum containers and
found that his transportation ex-
penses were reduced four marks a
barrel in this way.
Continuing the experiment on a
larger scale, Riedemann transformed
the Andromeda, a 3,200 ton vessel,
into a petroleum carrier by installing
on each of her three decks twenty-
four iron tanks connected with pipe
lines. The big disadvantage on this
arrangement was that in the event of
repairs being made on the ship, which
was of wood, the tanks had to be re-
moved at great expense and risk of
damage. Riedemann finally concluded
that the ideal tanker must be of iron
and the entire hull of the vessel used
as a container. Accordingly he
planned a ship with the engine aft,
protected by a water-filled cofferdam,
and the remaining space separated by
bulkheads into eight compartments.
Riedemann tried in vain to get a
German shipbuilding firm to construct
a vessel after his design. He went to
England and finally persuaded a New-
castle concern to undertake it. The
result was the first modern tanker,
the Glouceauf, which was launched in
1886.

The arrival of the Glouceauf in New
York in August of the same year
created consternation among petroleum
shippers. An indignation meeting was
held, and it was proposed to petition
congress to prohibit the exportation
of petroleum in bulk on the ground
that the oil gases would endanger the
lives of all on board the tanker. A
committee was appointed to request
the Standard Oil company to refuse
petroleum to the Glouceauf.
But progress triumphed as usual.
Today there are 400 vessels of sub-
stantially the Glouceauf type trans-
porting petroleum and 58 more are in
course of construction in American
shipyards.

Morgan's Valuable Library.
Experts attached to the American
Art association have completed their
nine months' task of appraising the
Morgan library, and have submitted
their report. The library has been made
public, but it is known that the value
of the rare books, manuscripts and en-
gravings has been placed at about \$7,
500,000. Of this amount the books re-
present about \$5,000,000.
The Morgan library is housed in the
marble building built for it at 33
East Thirty-sixth street by the late J.
Pierpont Morgan, a New York corre-
spondent of the Philadelphia Ledger
says. The library is especially rich
in the collection of Bibles, which ex-
tend back through the era of printing
to the manuscript Bibles that preceded
it. Especially noticeable, also, are
the Chaucer, Shakespeare and Burns
collections. Among the manuscripts
in the Morgan collection which have
greatly increased in value are the
Dickens manuscripts, including that
of "A Christmas Carol," which ex-
perts believe now would bring about
\$50,000 to \$100,000. There also is the
manuscript of Thackeray's "Vanity
Fair" and of Milton's "Paradise Lost,"
in the handwriting of the blind poet's
daughter. The manuscripts of all the
more important Burns poems are in
the collection.

Activities of Women.
Over 20,000 women are employed in
the canneries of California.
Mrs. Winston Churchill is a design-
er of curtains.
French women are now cleaning
the streets, currying the horses, clean-
ing motors cars and acting as miners.
Miss Margaret Kennedy, a musically
inclined girl of Skokawa, Cal., is
paying for her education by crawfish-
ing.
Miss Caroline K. Kenworthy of Phil-
adelphia, is licensed to practice law in
the Federal courts of the United
States.
A census taken of the women who
attend theaters in New York city show
that they predominate in the gallery
seats.
Russia and Serbia, also Austria, may
allow young women to fight in their
armies, but Canada will not, although,
according to a recruiting officer in
Winnipeg, several have applied and two
could hardly be kept from joining by
force in response to a call for ste-
nographers for the secondary service.

After the Honeymoon.
Mrs. George Jay Gould was defend-
ing, at a dinner in New York, a mar-
riage of a rational rather than roman-
tic nature.
"These romantic and imprudent
marriages are very fine in the begin-
ning," said Mrs. Gould, "but later on!"
She shook her head pensively.
"Love," she said, "laughs at lock-
smiths, but later on the wolf at the
door does the same thing."
British Doctors Get Gasoline Rebate.
Gasoline is far more expensive in
Great Britain than in the United
States, and in order not to inflict a
too heavy outlay on physicians using
light cars in their professional work,
the British government is now grant-
ing a rebate of 3d. per gallon to all
doctors making application for it be-
fore their local collector of taxes.
TAXES.
"St. Denis."
Among the ignorances of paragraph-
ers is the use of "St. Dennis," whether
as the name of a sensational dancer
or otherwise. St. Denis, with one
"n," is a very creditable French mem-
ber in the Roman historiography; the
Irish Dennis, with two "n's," is a cor-
ruption of the name—Springfield Re-
publican.

and Worn-out Conditions**
Dear Mr. Editor:
I suffered from lame back and a
tired, worn-out feeling. Was unable to
stand erect and scarcely able to get
around. It would usually come on at
first with crick in small of my back.
I took Anuric Tablets and my back
commenced to get better. I did not
have to walk doubled over as I did
before using the "Anuric." It is the
best remedy I have ever taken for
what it is intended to relieve.
